## Kit World Legends are proud to be supporting two great charities

### My Name's5 Doddie Foundation

Doddie Weir is one of rugby's most recognisable personalities. He earned 61 caps for Scotland during a successful playing career, represented the British & Irish Lions on their successful tour to South Africa in 1997 and won championships with his two club sides, Melrose and Newcastle Falcons. A talented, committed and athletic lock forward, Doddie is now facing his biggest challenge. In June 2017, the Scot revealed he was suffering from Motor Neurone Disease.

From the outset, Doddie has been driven to help fellow sufferers and seek ways to further research into this, as yet, incurable disease. In November 2017, Doddie and his Trustees launched the registered charity My Name's5 Doddie Foundation.

Its aims are simple:

- To raise funds to aid research into the causes of Motor Neurone Disease and investigate potential cures.
- To make grants to individuals suffering from MND, to enable them to live as fulfilled a life as possible

Doddie wants to help those touched by MND – be it fellow sufferers or their families having to deal with the daily consequences – with basic and practical relief, whether that be to help with mobility and transport needs, with care and respite, or access and basic living requirements.

### Joost Van Der Westhuizen and the J9 Foundation

The J9 Foundation was formed by the rugby legend, Joost van der Westhuizen in aid of those suffering from the same form of fatal illness that he was diagnosed with early 2011, Motor Neuron Disease.

Joost created a platform through this foundation to allow people, companies and friends to support the quality of life programs available within this organization.

The J9 Foundation's core objectives were to contribute to research in Africa and raise awareness, both locally and internationally for Motor Neuron Disease with the intent of teaching people about the disease who then, in turn, supported efforts across the globe to find a cure or cause.
